半導体不足に伴う納期延滞と値上げについて

貴社ますますご盛栄のこととお慶び申し上げます。日頃は大変お世話になっております。さて 昨今世界的な半導体不足に伴い、弊社製品を構成する部品や材料が長納期化しており、また値上げも免れない状況となりました。以下に詳しくご案内申し上げます。

【対象製品】

ACアダプター、スイッチング電源、電源ケーブル、ケーブルアクセサリ、他

【対象製品の構成部品・材料（納期延滞&値上げ対象）】

半導体 IC、トランス、インダクタンス、コンデンサ、DC コード、樹脂ケース、他全部品

【原因】

新型コロナウイルス蔓延の影響で世界的な電子機器の需要急増に伴い、弊社製品を構成している半導体を含むすべての電子部品や材料が不足しているため

既にご発注済で入荷をお待ちいただいているお客様におかれましては、多大なご迷惑をおかけし誠に申し訳ございません。

これからご発注予定のお客様は一刻も早いご手配をお願い申し上げます。

今後関連情報が得られます際には、随時弊社サイトにて情報公開させていただきます。

個別の質問やご相談は弊社担当までご連絡をお願いします。(電話: 079-560-7333)

何卒ご理解のほど宜しくお願いいたします。

Notice of Price increase

Dear Valuable Customers,

We would like to take this opportunity to extend our heartfelt appreciation to your continued support and patronage rendered to our company.

As you may aware of, recent demand of the capacitors is in quite strong. However, the materials prices of the capacitors have been soaring these periods. Moreover, the logistics cost became crazy high following the long-lasting restrictions caused by COVID-19 or world-wide shortage of containers. We are in the difficult situation to maintain the current prices for our products.

Of course, we have accomplished all means of efforts to absorb the cost increase but we also need to raise the sales prices to you. We realize this will not make your situation easier but we would like you to understand our difficult situation and to accept our request of price increase effective from 1st March 2021.

Your understanding and cooperation in this regard will be much appreciated.

Subject : Recent Business Circumstances

Dear valued customer,

We sincerely appreciate your business and, as your partner, we find it necessary to share with you the recent business conditions that are directly affecting our company and our industry.

We have seen market conditions improve dramatically since September of last year mainly in the automotive field but others as well. Because of this, the orders we have received have gone beyond our production capacity. To remedy this situation, we are adjusting our production machines to match the order demands as best we can, but we are still having difficulty producing enough product to meet our customer's needs.

In addition to production capacity issues, we are facing shortages of raw materials especially raw aluminum foil and the specialized electrolytic paper needed to make aluminum electrolytic capacitors. The lead-times for these materials and others are getting longer and costs are increasing. We are even facing increased electricity costs.
